Staff Updates

Highlights Of Outreach In Queens

Since my update last month, I would like to give you an update on two projects that we are involved with:

Look out for the April issue of The New York Enterprise Report. See their special section about the best and brightest of Queens business accomplishments – innovative business techniques, interesting profiles, important development projects and unique venues. Members of the Queens Chamber of Commerce receive a free subscription to The New York Enterprise Report.

To further serve residents in southern Queens, the Queens-Long Island Medical Group has just opened an office in Cambria Heights, and The Greater Jamaica Development Corporation has a "Greeter's Program," with a recently redesigned tourism kiosk as their centerpiece for promoting hotels, restaurants and cultural institutions around the borough. They invite you to send your brochures for travelers to pick up from the kiosk in the Jamaica Long Island Rail Road terminal.

I mentioned last month the Chamber's promotion of international business and our close relationship with local Asian communities. Our member, Flushing Travel has organized a special tour to China for the grand opening of the EXPO 2010 Shanghai World's Fair. For full details of this fascinating trip which departs Kennedy Airport on April 26th, go to www.queenschamber.org and click on Event Calendar. This is your last chance to still take part in this super trip.

Our Chamber joins forces with local Chambers to cross-promote events, workshops, seminars and networking opportunities. Most recently the Forest Hills Chamber of Commerce reached out to us, and we participate in the Borough President's Queens Economic Development Leadership Council, a quarterly forum for community organizations and local chambers to meet.

Marva Kalish
